Salix interior

Twining honeysuckle
Lonicera dioica

Rob Routledge, Sault College, Bugwood.org

Why replace non-native species in your backyard with native plants?

- Support native pollinators
- Increase local biodiversity
- Prevent the spread of invasive species
- Reduce water usage

Looking for native plants or seeds?

Check out these trusted SK based suppliers:
Blazing Star Wildflower Seed Company -
Aberdeen SK - growwildflowers.ca
A Prairie Bouquet - Asquith SK -
aprairiebouquet.square.site
